

AUGUST 2026

THE WOMEN'S CHRONICLE – RISE & LEAD

**Theme : The Grace of
Preservation: Minimal
Intervention, Maximum Impact**

Host Institution:

Preserving Smiles, Empowering Communities

August 2026 reflected Bharat Dental Show Women's League's commitment to clinical excellence and community well-being. The month featured the Mangalore Chapter's academic programme on "The Grace of Preservation: Minimal Intervention, Maximum Impact," four expert-led webinars, and a meaningful Dental Awareness and Screening Programme for Immunocompromised Children at Deziere Society's Home for Orphan Children, Navi Mumbai. Together, these initiatives promoted evidence-based dentistry, preventive oral healthcare, and meaningful community outreach.

Bharat Dental Show 365

The World's First Women-Driven Hybrid Dental Congress & Trade Ecosystem

Bharat Dental Show 365 is a groundbreaking initiative designed to redefine dental education and trade. It is a year-round hybrid congress model, combining online learning with localized offline events—making education more accessible, affordable, and environmentally responsible.

This platform is proudly led by women dentists and healthcare professionals, placing strong emphasis on:

Women leadership in dentistry | Ethical and scientific education | Work-life balance and mental wellbeing | Long-term career sustainability

By reducing unnecessary travel and minimizing large-scale, expensive exhibitions, Bharat Dental Show promotes a sustainable event ecosystem that benefits both professionals and the planet.

It challenges traditional trade show models by offering:

- Affordable participation
- Continuous (365-day) learning opportunities
- Ethical promotion of dental products and innovations

This is not just an event—it is a movement designed to build a resilient, inclusive, and future-ready dental community.

Save the Tooth Initiative

Preserving Nature. Restoring Smiles. Building Awareness.

The Save the Tooth Initiative promotes a powerful philosophy:

The best dentistry is the one that preserves natural teeth.

In today's fast-moving clinical environment, the focus often shifts toward replacement rather than preservation. This initiative brings dentistry back to its roots by promoting:

Preventive care | Early diagnosis | Minimally invasive treatments | Patient education

Promoting Longevity in Dentistry (India)

Restoring 1 Million Smiles with Awareness and Accessibility

As a core extension of the Save the Tooth mission, Promoting Longevity in Dentistry focuses on making oral healthcare accessible to every individual, regardless of background.

With a bold vision to restore 1 million smiles, this initiative works across India to:

- Provide affordable or free dental treatments
- Conduct dental awareness campaigns in regional and local languages
- Simplify oral health education for the general population

Through:

- Community dental camps
- Online awareness videos
- Grassroots engagement

The initiative encourages one simple yet powerful habit:

Visit a dentist every 6 months

By communicating in local languages and culturally relevant formats, it breaks barriers, builds trust, and ensures that oral health becomes a priority for every family.

Together, these efforts create a strong foundation for **preventive, ethical, and sustainable dentistry**, improving both individual health and community wellbeing.

Dentist Channel Online (DCO)

The Global Media, Branding and Marketing Engine of Dentistry

Dentist Channel Online is the digital backbone of this ecosystem, connecting over 120,000+ dental professionals worldwide.

DCO enables:

- Continuous dental education through webinars and digital content
- Ethical branding and promotion for dentists and dental companies
- Global visibility and professional networking
- Digital transformation of dental practices

With a presence across India, the Middle East, and Europe, USA, DCO ensures that knowledge, innovation, and opportunities reach the right audience.

It serves as the voice of modern dentistry, combining media, technology, and strategy to support long-term growth.

How DentistChannel Online Powers Bharat Dental Show (BDS)

DentistChannel Online (DCO) is the driving force behind the growth, reach, and impact of the Bharat Dental Show (BDS)—creating a powerful digital ecosystem that connects, educates, and promotes dental professionals globally.

Unmatched Global Reach & Visibility

- 120,000+ Dental Professionals connected across social media platforms
- 30,000+ Registered Website Users actively engaged in the ecosystem
- 25,000+ Monthly Website Visitors, ensuring continuous exposure
- High-Quality Dental Audience—focused and verified dental professionals
- Strong Community & Communication Network
- 50+ Active WhatsApp Groups connecting dentists across regions
- A Dedicated Dentistchannel WhatsApp Channels for instant updates, promotions, and engagement
- Direct access to a highly responsive and niche dental community
- Education, Credibility & Continuous Growth
- 60,000+ CDE Certificates Issued to dental professionals globally
- Continuous webinars, academic sessions, and training programs
- Supporting all BDS events with structured education + certification pathways

Bharat Dental Show Women's League – Mangalore Chapter Conducts Academic Programme on Minimal Intervention Dentistry

The Bharat Dental Show Women's League – Mangalore Chapter, in collaboration with Yenepoya Dental College, conducted an academic programme titled "The Grace of Preservation: Minimal Intervention, Maximum Impact" on 3 September 2026 at Yenepoya Dental College, Mangaluru.

The programme was inaugurated by Dr. Laxmikanth Chatra, Principal, Yenepoya Dental College, in the presence of Dr. Sham S. Bhat, Dean – Faculty of Dentistry, Yenepoya (Deemed to be University), and Dr. Mohammed Hasan Sarfaraz, Vice Principal, Yenepoya Dental College. The event was attended by faculty members, postgraduate students, and interns.

Following the inaugural ceremony, the scientific sessions focused on contemporary evidence-based approaches to caries management and minimal intervention dentistry.

Dr. Teena Sheethal Dsouza, Reader, Department of Conservative Dentistry & Endodontics, A.B. Shetty Memorial Institute of Dental Sciences, delivered a lecture titled **“Preserve or Remove: Evidence-Based Decision Making in Caries Removal.”**

The session highlighted current concepts in caries excavation and emphasized preservation of healthy tooth structure through evidence-based clinical decision-making.

Dr. Raksha Ballal, Additional Professor, Department of Pediatric & Preventive Dentistry, Yenepoya Dental College, presented **“The New Caries Playbook: Prevention Meets Minimal Intervention.”**

The lecture focused on preventive strategies, early diagnosis, risk assessment, and minimally invasive management of initial carious lesions.

The programme also featured a hands-on workshop,

“See Right, Treat Right: ICDAS & Selective Caries Removal,” conducted by **Dr. K. Rahul Pai**, Lecturer, Department of Conservative Dentistry & Endodontics, Yenepoya Dental College.

The workshop provided participants with practical training in the International Caries Detection and Assessment System (ICDAS) and selective caries removal techniques. Through demonstrations and supervised exercises, interns gained valuable clinical exposure to contemporary diagnostic and conservative treatment protocols.

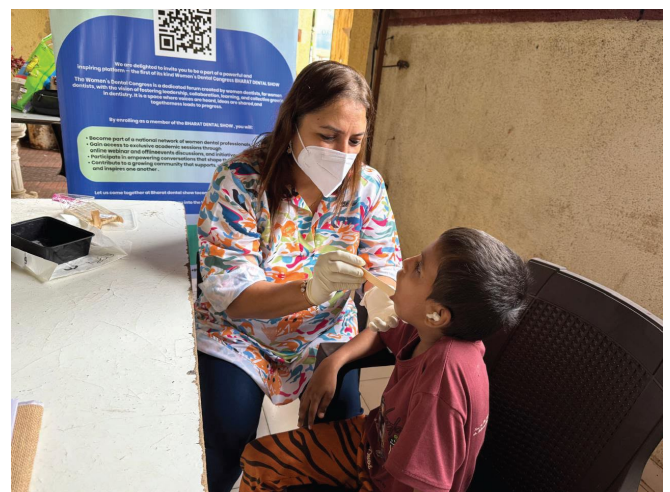

The programme successfully integrated scientific deliberations with practical learning, reinforcing the principles of minimal intervention dentistry and the importance of evidence-based, preservation-oriented patient care.

Dental Awareness and Screening Programme for Immunocompromised Children

As part of its ongoing commitment to community welfare and preventive oral healthcare, the Bharat Dental Show – Women's Drive & Congress Community Outreach Initiative successfully conducted **a Dental Awareness and Screening Programme for Immunocompromised Children at Dezure Society's Home for Orphan Children, Navi Mumbai, on 16 August 2026.**

The initiative was supported by the Divine Foundation, founded by **Mr. D. H. Subramaniam**, with active coordination and support from **Mrs. Jyoti Jasani**. The programme was led by **Dr. Shefali Bhiwapurkar**, Social Outreach Coordinator, under the guidance of **Dr. Manali Mehta**, Organizing Secretary.

The children actively participated in the educational activities and interactive discussions. To encourage healthy oral hygiene habits, each child was provided with **toothbrushes, oral hygiene aids, and activity notebooks**. The initiative was warmly received by the children, caregivers, and organizers alike.

More than **30 immunocompromised children** participated in the programme and underwent comprehensive dental screening. Following the examinations, an engaging oral health awareness session was conducted, emphasizing the importance of maintaining good oral hygiene practices, regular tooth brushing, prevention of common dental diseases, and the need for periodic dental check-ups. Special attention was given to the oral healthcare needs of children requiring additional medical care and support.

This outreach programme reflects the collective efforts of healthcare professionals and community organizations in promoting preventive dental care and creating awareness among underserved and vulnerable populations. Through such initiatives, Bharat Dental Show continues to advance its mission of improving oral health awareness and fostering healthier communities across India.
