Empowering Future Dentists

May 2026 showcased Bharat Dental Show's dedication to nurturing the next generation of dental professionals through education, innovation, and mentorship. Under the theme of women-led knowledge sharing, four impactful webinars explored advancements in periodontics, implantology, leadership, and airway dentistry, while the Finishing Touches – Getting Ready for a New Beginning Interns Training Program at Yenepoya Dental College equipped aspiring dentists with essential clinical, professional, and digital skills. Together, these initiatives inspired participants to embrace lifelong learning and confidently prepare for the future of modern dentistry.

Bharat Dental Show 365

The World's First Women-Driven Hybrid Dental Congress & Trade Ecosystem

Bharat Dental Show 365 is a groundbreaking initiative designed to redefine dental education and trade. It is a year-round hybrid congress model, combining online learning with localized offline events—making education more accessible, affordable, and environmentally responsible.

This platform is proudly led by women dentists and healthcare professionals, placing strong emphasis on:

Women leadership in dentistry | Ethical and scientific education | Work-life balance and mental wellbeing | Long-term career sustainability

By reducing unnecessary travel and minimizing large-scale, expensive exhibitions, Bharat Dental Show promotes a sustainable event ecosystem that benefits both professionals and the planet.

It challenges traditional trade show models by offering:

- Affordable participation
- Continuous (365-day) learning opportunities
- Ethical promotion of dental products and innovations

This is not just an event—it is a movement designed to build a resilient, inclusive, and future-ready dental community.

Save the Tooth Initiative

Preserving Nature. Restoring Smiles. Building Awareness.

The Save the Tooth Initiative promotes a powerful philosophy:

The best dentistry is the one that preserves natural teeth.

In today's fast-moving clinical environment, the focus often shifts toward replacement rather than preservation. This initiative brings dentistry back to its roots by promoting:

Preventive care | Early diagnosis | Minimally invasive treatments | Patient education

Promoting Longevity in Dentistry (India)

Restoring 1 Million Smiles with Awareness and Accessibility

As a core extension of the Save the Tooth mission, Promoting Longevity in Dentistry focuses on making oral healthcare accessible to every individual, regardless of background.

With a bold vision to restore 1 million smiles, this initiative works across India to:

- Provide affordable or free dental treatments
- Conduct dental awareness campaigns in regional and local languages
- Simplify oral health education for the general population

Through:

- Community dental camps
- Online awareness videos
- Grassroots engagement

The initiative encourages one simple yet powerful habit:

Visit a dentist every 6 months

By communicating in local languages and culturally relevant formats, it breaks barriers, builds trust, and ensures that oral health becomes a priority for every family.

Together, these efforts create a strong foundation for **preventive, ethical, and sustainable dentistry**, improving both individual health and community wellbeing.

Dentist Channel Online (DCO)

The Global Media, Branding and Marketing Engine of Dentistry

Dentist Channel Online is the digital backbone of this ecosystem, connecting over 120,000+ dental professionals worldwide.

DCO enables:

- Continuous dental education through webinars and digital content
- Ethical branding and promotion for dentists and dental companies
- Global visibility and professional networking
- Digital transformation of dental practices

With a presence across India, the Middle East, and Europe, USA, DCO ensures that knowledge, innovation, and opportunities reach the right audience.

It serves as the voice of modern dentistry, combining media, technology, and strategy to support long-term growth.

How DentistChannel Online Powers Bharat Dental Show (BDS)

DentistChannel Online (DCO) is the driving force behind the growth, reach, and impact of the Bharat Dental Show (BDS)—creating a powerful digital ecosystem that connects, educates, and promotes dental professionals globally.

Unmatched Global Reach & Visibility

- 120,000+ Dental Professionals connected across social media platforms
- 30,000+ Registered Website Users actively engaged in the ecosystem
- 25,000+ Monthly Website Visitors, ensuring continuous exposure
- High-Quality Dental Audience—focused and verified dental professionals
- Strong Community & Communication Network
- 50+ Active WhatsApp Groups connecting dentists across regions
- A Dedicated Dentistchannel WhatsApp Channels for instant updates, promotions, and engagement
- Direct access to a highly responsive and niche dental community
- Education, Credibility & Continuous Growth
- 60,000+ CDE Certificates Issued to dental professionals globally
- Continuous webinars, academic sessions, and training programs
- Supporting all BDS events with structured education + certification pathways

30 May 2026 | Yenepoya Dental College, Mangaluru

Finishing Touches – Getting Ready for a New Beginning Interns Training Program Lecture Series 2026 at Yenepoya Dental College

On 30th May 2026, Yenepoya Dental College, Mangaluru, in association with Bharat Dental Show and Dentist Channel.online, successfully hosted the “Finishing Touches – Getting Ready for a New Beginning” Interns Training Program Lecture Series. The event was designed to prepare dental interns and young professionals for the transition from academic learning to successful clinical practice through expert-led sessions on aesthetics, career development, neuroscience-based learning, and digital transformation in dentistry.

The program brought together distinguished speakers and industry leaders who shared valuable insights on the future of dentistry. Attendees benefited from practical knowledge, career guidance, and exposure to emerging technologies that are reshaping modern dental practice. The initiative reflected Yenepoya Dental College's commitment to producing future-ready dental professionals equipped with both clinical excellence and professional confidence.

In-Person Events

30 May 2026 | Yenepoya Dental College, Mangaluru

Dr. Sandesh Mayekar, MDS, MS,

Father of Aesthetic and Cosmetic Dentistry in India

Topic 1 : Functional Smile Design: Where Aesthetics Meets Biology and Longevity

Dr. Mayekar shared his extensive expertise in aesthetic dentistry, emphasizing the integration of biological principles with smile design to achieve long-lasting, predictable, and patient-centric outcomes.

Topic 2: Beyond the Degree: Building a Fulfilling Career in Dentistry

In an inspiring career guidance session, Dr. Mayekar encouraged interns to think beyond academic qualifications and focus on lifelong learning, practice management, communication skills, and personal growth for professional success.

Dr. Ketaki Pawar, MDS

Founder & Director, TaughtWell SimplifyEd

Topic: Neuro Hacks for Dental Students: The Science of Learning Faster

Dr. Ketaki Pawar introduced evidence-based learning techniques derived from neuroscience, helping students understand how to improve memory retention, learning efficiency, focus, and academic performance.

Dr. Melvin Mendonca, DBA, DJV,

Founder & CEO, Dentist Channel.online

Topic: From Student to Smart Dentist: Understanding AI & Data-Driven Clinics in Modern Practice

Dr. Melvin Mendonca highlighted the growing role of Artificial Intelligence, data analytics, and digital workflows in dentistry. The session explored how future dentists can leverage technology to improve patient care, practice efficiency, decision-making, and clinical outcomes.

Conclusion

The Finishing Touches Interns Training Program 2026 successfully delivered a comprehensive platform for learning, inspiration, and professional development. Through expert lectures, career mentorship, and discussions on emerging technologies, the program equipped participants with the knowledge and confidence needed to embark on their professional journey in dentistry. The event stands as a significant step toward preparing future dentists for the rapidly evolving landscape of modern dental practice

QUICKDENT DENTAL IMPLANTS

“Grafting smiles with confidence”

Quickdent’s provides innovative and superior quality dental implants catering to the specific needs of patients. We are driven by our passion to improve the quality of life of our patients with missing teeth and make high-quality dental implants available to one and all.

Our vision is to create a sustainable range of dental implants with an innovative design customized for various types of conditions, by bridging the gap between the implant manufacturers and dental professionals.

An inspiring 2 days at SDM Dental College, Dharwad!

Quickdent, in collaboration with Bharat Dental Show, successfully hosted the Immediate Loading & 360° Implant Rehabilitation Workshop – bringing together enthusiastic clinicians committed to advancing their implant practice.

From in-depth lectures and focused learning sessions to live demonstrations and hands-on training, the workshop delivered a complete clinical experience.

We were also honoured with a warm welcome and recognition from the college faculty and staff.

Grateful to all participants for making this workshop a great success!

Complete Implant Solutions – Powered by Precision & Digital Innovation

Quickdent delivers a complete implant ecosystem—from the Implant surgical Kits for safe, precise placement to a full range of compatible prosthetic solutions. With Quickdent 3D, we empower clinicians with intuitive tools and training to master guided surgery and excel in digital implantology.
